## Manuscript Checklist for the Proceedings of the 1996 Beam Instrumentation Workshop

Please complete both pages of this form and submit it and the other requested material to Cathy Eyberger at the BIW'96 Workshop Desk no later than 4:00pm on May 8, 1996.

Title:

BIW'96 Abstract Number (contributed papers only):

Author to Whom Correspondence Should be Addressed:

| Name:    |  |
|----------|--|
| Address: |  |
|          |  |
|          |  |
|          |  |
| Phone:   |  |
| Fax:     |  |
| E-mail:  |  |

- I. Please submit the following material:
  - □ Completed Manuscript Checklist.
  - □ Two camera-ready copies of your final paper—one original and one duplicate.
  - □ Completed AIP Transfer of Copyright Agreement.
  - □ High-density, 3.5" diskette(s) with electronic files of text and graphics. Whenever possible, please include the graphics electronic files in either GIF, TIF, or PostScript formats. Label the diskette(s) with your name and BIW'96 abstract number. Complete the table in Part II of this form to identify the word processing and graphics applications software that you used to produce the files.
  - □ Hard copy of graphics. For line drawings, provide good quality black and white laser printer output; for photographs and halftone prints, provide high-quality original black and white prints. Label all graphics with your name, BIW'96 abstract number, and figure number.

II. Please provide the following information for all of the electronic files that you are submitting with your manuscript. Follow the examples given in italics.

| Filename        | Application     | Version | Format | Platform  |
|-----------------|-----------------|---------|--------|-----------|
| Manuscript.text | Microsoft Word  | 5.1     | raw    | Macintosh |
| Figure1.dat     | ClarisDraw      | 1.0v1   | raw    | Macintosh |
| Figure1.eps     | Microsoft Excel | 5.0     | EPS    | DOS       |
|                 |                 |         |        |           |
|                 |                 |         |        |           |
|                 |                 |         |        |           |
|                 |                 |         |        |           |
|                 |                 |         |        |           |
|                 |                 |         |        |           |
|                 |                 |         |        |           |
|                 |                 |         |        |           |
|                 |                 |         |        |           |
|                 |                 |         |        |           |
|                 |                 |         |        |           |
|                 |                 |         |        |           |
|                 |                 |         |        |           |
|                 |                 |         |        |           |
|                 |                 |         |        |           |
|                 |                 |         |        |           |
|                 |                 |         |        |           |
|                 |                 |         |        |           |
|                 |                 |         |        |           |
|                 |                 |         |        |           |
| <br>            |                 |         |        |           |
|                 |                 |         |        |           |
|                 |                 |         |        |           |
|                 |                 |         |        |           |
