Thursday, October 11, 2001
1:30–5:00 pm

Great strides have been made in the development of high-performance instrumentation at the Advanced Photon Source and at other x-ray synchrotron radiation facilities. These innovations in devices, methods, and techniques for acquiring and analyzing experimental data have dramatically improved the quality and quantity of the data, and have given us new and exciting insights into a wide variety of phenomena. This workshop will focus on several of these exciting and potentially revolutionary instrumentation developments.
