

SESS - Seminar

SESS - School for Environmental Sciences and Synchrotron radiation

Nov 17-26, 2008

Advanced Photon Source, ANL

Program:

Monday, Nov 17 11 am Bldg. 401-A1100	Julia Sedlmair University of Göttingen, Germany	X-Ray Spectromicroscopy for Environmental Sciences - Reaching Out from the Water Window to Higher Energies
Friday, Nov 21 1:30 pm Bldg. 401 - A1100	Carmen Martinez Pennsylvania State University	Nano-Goethite (α -FeOOH) in the Presence of Aluminum
Monday, Nov 24 11 am Bldg. 401 - A1100	Andrea Olbrich University of Göttingen, Germany	Sulfur Distribution in Tree-Mycorrhiza Symbiosis
Tuesday, Nov 25 11 am Bldg. 401 - A1100	Jason Unrine University of Kentucky	Fate and Effects of Manufactured Noble Metal Metal Nanoparticles in terrestrial Food Webs

Organizers:

Juergen Thieme
Ian McNulty

University of Goettingen, Germany (jthieme@gwdg.de)
Advanced Photon Source, Argonne, USA (mcnulty@aps.anl.gov)
